LOCAL FLORIDA STATE (Continued from Page 1)

Sophomore Miss Cecil, daughter of Mr. and Mrs. R. A. Cecil, graduated from Queen's College in Barbados. She explains that the institution is the same as our high schools here. Miss Cecil is active in the Pre-Medical Club. One of a chosen group, Miss Friedheim, daughter of Mr. and Mrs. J. Friedheim, was selected to serve on the Sophomore Council. The organization is made up of girls outstanding in scholarship and leadership. It functions to orientate freshmen on the campus. She is also active in the Home Economics Club and the Newman Club. Miss Hendry, daughter of Mr. and Mrs. R. M. Hendry, has assumed the arduous duties of junior counselor. In this capacity, she leads, instructs, advises and sometimes reprimands the group of freshmen assigned to her. She is also active on the "Tully Ha" college yearbook. A student of varied activities, Miss Hooker, daughter of Mr. and Mrs. W. R. Hooker, also serves as junior counselor. In addition, she is a member of the Palm Beach County Club, University Slayers and the Weylyn Foundation. Miss Will, daughter of Mr. and Mrs. L. E. Will, believes in keeping touch with home by belonging to the Palm Beach County Club. She is a junior at Florida State University.

DOUBLE-TALK Doesn't Pay Doctor Bills! Claude Pepper's opponents have been doing a lot of sounding off about what they call "socialized medicine" in this campaign. It's no good, they say, it's "socialized"—to want to protect your life savings by paying insurance when you're well, so cover expense when you're sick. In Government insurance that insures your health against "socialized medicine"? That's what "socialized" about a plan that insures your health and don't let it be a fraction of the cost of any patient's plan now in existence? What's "socialized" about a plan that lets patients choose their own doctors and doctors their own patients? Well, the people of Florida know this kind of "socialized" doesn't make sense, or pay any bills either. And they know Claude Pepper for National Health Insurance for the same reason he is for all progressive legislation because it does the most good for the greatest number of people.

NEW CLAUDE PEPPER—STILL HERE FOR YOU. FRIED, APR. 14, 1-230 P.M. E.E.T. For Florida's Future—For Your Own Future.

RETURN CLAUDE PEPPER to the U.S. SENATE

At the business session it was decided to have a cake sale April 22.

Mrs. A. L. Wallis announced the inter-denominational fellowship pot-luck to be held May 1.

It was voted to have a chicken in-the-basket supper at the church, beginning at 8:30 p.m. April 29, charges to be \$1.35 a basket.

Plans were discussed for an entertainment of the choir, sometime in May.

Mrs. Gledhill reported on the WSCS district meeting held recently in Ft. Lauderdale.

Present were: Mrs. Dora McWhorter, Mrs. George Farnell, Mrs. L. W. West, Mrs. E. D. Harris, Mrs. G. L. Royal, Mrs. H. J. Bratley, Mrs. William Carter, Mrs. R. V. Creech, Jr., Mrs. F. C. Dooley, Mrs. J. I. Friedheim, Mrs. J. M. Gledhill, Mrs. W. R. Hooker, Mrs. D. W. Harris, Mrs. G. L. Royal, Mrs. M. M. Sabiston, Mrs. John Schoenfeld, Mrs. F. C. Schoenfeld, Mrs. Jean Van Horn, Mrs. Y. M. Van Landingham, Mrs. A. L. Wallis and Mrs. Joe Jones.

150 Ladies Attend Fellowship Dinner

Ladies of the Presbyterian Church were hostesses Tuesday night at the annual Fellowship dinner, held at their new church, complementing the women of the Methodist, Baptist and Presbyterian churches.

The event marked the fifth annual dinner, at which each of the three churches in turn are host

Look how you save with Dynaflo

FIRST thing you notice, of course, is the better and effort Dynaflo Drive saves.

Next, that Dynaflo saves you physically—after long trips you're less tense and tired, more relaxed.

But then, as the miles pile up—and this comes from cold, recorded fact after Dynaflo's two years of public operation—you spot savings you hadn't expected...

You save on tires—because power assistance is steady, even. On clutch expense—the usual friction clutch is gone.

You save on transmission maintenance, and the rear-axle expenses likely to go with it. And the way your engine is oil-cushioned against normal shocks and strains shows up in less engine upkeep.

* Based on ROADMASTER, optional at extra cost on SPECIAL models.

You may well discover another pleasant surprise, too.

We are getting a steadily mounting number of well-satisfied letters about gasoline mileage with Dynaflo cars.

The SPECIAL has shown some records little short of phenomenal. The SPECIAL is delivering mileage that compares most favorably with four-wheel cars. And the ROADMASTER more than holds its own with cars of its size and bulk.

In short, there's a lot more to please your budget in the 1950 Dynaflo than its new lower price. Refinements over the past two years result in savings that are sizable over the life of the car.

Knowing that, don't you want us to demonstrate the big side of Dynaflo—the utter smoothness of America's first oil-cushion-all-drive?

Daily Buick has Dynaflo

and with it goes more COMFORTION! Fluid volume—oil power in new engines. New 1-385 engine in SPECIAL models.

* NEW ACTION STEERING, with SHOCK-ABSORBERS, front-end, super-through fenders, "double hood" headlights. * WIDE-ANGLE VISIBILITY, clear view both forward and back. * TRAFFIC-HANDLING, low over-all height for easier parking and gripping, short turning radius. * EXTRA-FAST, smooth, fast, and easy to drive. * SOFT RIDE, built-in shock absorbers, extra shock absorbers, low-pressure tires, side-swinging torque bars. * WIDE SELECTION OF ACCESSORIES with Buick.

Matchless Team

DYNAFLO and F-363

In the Buick beauty pictured here you can have both Dynaflo and Buick's very latest in power, for every

1950 Buick has the F-363 engine, the big power of the new Buick. Dynaflo Drive is the power of oil-cushion.

dional dosages should follow every third day, Haykal says.

Such new treatments and methods are discovered after a lengthy period of testing.

For example, treatments are applied to five different plots at the experiment station. One plot is left untreated. Results of control plots are compared with those of the untreated plot, and the difference determines success of the treatment.

Testing is carried on for several seasons. Arrangements are made with several local growers for placement of experimental plots in their fields.

From the experimental process comes a stream of methods and treatments to growers for advancement of their farming techniques.

Bulletins are written such as "Control of Bodworms, Earworms, and other Insects Attacking Sweet Corn and Green Corn in Florida" by E. G. Kellshimer, Haykal and J. W. Wil-

son. The booklet represents completed efforts and findings of three entomologists located in different areas of the state. The bulletin can be obtained by writing the Agricultural Experiment Station, University of Florida, in Gainesville.

Cinematic Chatting

By Malcolm Miller
How's your blood pressure? It better be good when Clark Gable and Lana Turner, with Ann Baxter and John Hodiak move into the Hugo Theatre for the Sunday-Monday run for this team really generate steam in this one. The show is "Homecoming."

Clark has the role of a successful surgeon who enters the service of his country, leaving Ann Baxter, his devoted wife behind. In the service he meets "Snaps" McCall, Miss Turner, an army nurse. She is very successful for some time and then, low blossoms, Miss Turner is killed in the last of the picture and Clark, saddened by the loss, returns to his faithful wife and civilian life.

The picture moves along rapidly, with terrific action and drama that reaches white heat peaks. The Gable-Turner romance sprinkles a lot of terrific scenes into the picture, leaving one thoroughly satisfied in having lived through an episode that many of us have dreamed about but never experienced the thrill.

I'm sure you'll enjoy every moment of this perfectly balanced show with John Hodiak turning in one of the most pleasing performances of his career. See you at the movies—Mal.

HAVING TROUBLE
(Continued from Page 1)
Department of Agriculture is working on a new spray which promises to do much toward eliminating the danger.

If successful, the spray will enable planters to extend crops later into the season.

The spray, which may be more effective and less expensive than that, is composed of 95 percent water, 5 percent mineral oil and 5 percent of some DDT.

Strategic time of attack with the spray is when one-fourth of the corn silks are showing. After first application, a second
